

Dear parents,

Data Protection Legislation requires that we inform you why Clonmellon NS are requesting the information to be provided in this form. Please read the following before filling in the form and signing the consent section to ensure you are fully aware of the use the school will make of this information and with whom we will be sharing the information. The information provided in this form will be used:

- to ensure that the student meets the school's admission criteria
- to enable each student to develop to his/her full potential, ensuring that he/ she can benefit from the relevant additional teaching or financial supports
- to meet the educational, social, physical and emotional requirements of the student
- to enable parents/guardians to be contacted in the case of emergency or in the case of school closure, or to inform parents of their child's educational progress or to inform parents of school events, etc.
- to comply with legislative or administrative requirements
- to furnish documentation/information about the student to the Department of Education and Skills, the National Council for Special Education, TUSLA, and other schools, etc. in compliance with law and directions issued by government departments
- photographs and recorded images of students are taken to celebrate school achievements, e.g. compile yearbooks, establish a school website, record school events, and to keep a record of the history of the school.

This information will be shared with the Department of Education. The Department of Education and Skills has developed an electronic database of primary school pupils called the Primary Online Database (POD) which will involve schools maintaining and returning data on pupils to the department at individual pupil level on a live system. The database will allow the department to evaluate progress and outcomes of pupils at primary level, to validate school enrolment returns for grant payment and teacher allocation purposes, to follow up on pupils who do not make the transfer from primary to post primary level and for statistical reporting.

The database holds data on all primary school pupils including their PPSN, First Name, Surname, Name as per Birth Certificate, Mother's Maiden Name, Address, Date of Birth, Gender, Nationality, Whether one of the pupil's mother tongues is English or Irish, whether the pupil is in receipt of an exemption from Irish and if so the reason for same, whether the pupil is in receipt of Learning Support and if so the type of learning support, whether the pupil is in mainstream or Special Class. The database will record the class grouping and the standard in which the pupil is enrolled.

This information will be collated from your enrolment application and entered on POD.

This information will also be shared with TUSLA if the school needs to make a mandated report or report other concerns.

With your consent, information such as names and addresses will also be shared with HSE in respect of immunisations, dental visits, etc.

The database will also contain, **on an optional basis**, information on the pupil's religion and on their ethnic or cultural background. The department has consulted with the Data Protection Commissioner in relation to the collection of individual pupil information for the Primary Online Database. Both religion and ethnic and cultural background are considered sensitive personal data categories under Data Protection legislation. Therefore it is necessary for each pupil's parent / guardian to **identify their child's religion and ethnic background**, and **to consent** for this information to be transferred to the Department of Education and Skills. All other information held on POD was deemed by the Data Protection Commissioner as non-sensitive personal data.
